## NEWS AT A GLANCE

September 12-18, 2022

### ABS-CBN NEWS

#### [Volunteers help clean up the Dolomite Beach](#)

By: George Calvelo

Volunteers from different government agencies and private organizations participate in the coastal cleanup at the Dolomite Beach in Manila on Saturday, on occasion of the International Coastal Cleanup Day. The multi-million-peso funded beautification project on the narrow strip of land on Roxas Boulevard has required regular maintenance since it was first opened to the public in September 2020 due to the filth coming from Manila Bay.

#### ['We need to act now': IRRI joins UN Global Compact to improve energy self-sufficiency](#)

By: Timothy James Dimacali

Manila - In an effort to simultaneously address both climate change food security, the International Rice Research Institute (IRRI) has signed on to the UN Global Pact (UNGC), the world's largest corporate sustainability initiative.

## **AL JAZEERA**

### **[Do not backtrack on climate goals amid energy crunch, UN tells EU](#)**

The United Nations has called on European Union countries not to resort to more fossil fuels as they face soaring energy prices amid fears of winter shortages.

## **ASSOCIATED PRESS**

### **[UN sums up climate science: world heading in wrong direction](#)**

GENEVA (AP) — With weather disasters costing \$200 million a day and irreversible climate catastrophe looming, the world is “heading in the wrong direction,” the United Nations says in a new report that pulls together the latest science on climate change.

## **BBC NEWS**

### **[Climate change: Pakistan floods 'likely' made worse by warming](#)**

By: Math McGrath

Global warming is likely to have played a role in the devastating floods that hit Pakistan, say scientists. Researchers from the World Weather Attribution group say climate change may have increased the intensity of rainfall.

### **[Climate Change Is Making People Angrier Online](#)**

By: Laura Millan Lombrana

Climate change is making us angrier online. A lot angrier. Hateful comments spike on social media when temperatures rise above 30 degrees Celsius (86 Fahrenheit), researchers at the Potsdam Institute for Climate Impact Research have found.

### **[Switching to renewable energy could save trillions - study](#)**

By: Jonah Fisher

Switching from fossil fuels to renewable energy could save the world as much as \$12tn (£10.2tn) by 2050, an Oxford University study says. The report said it was wrong and pessimistic to claim that moving quickly towards cleaner energy sources was expensive.

## **BUSINESS WORLD**

### **[Pru Life bullish on growth despite risks](#)**

By: K.B. Ta-asan

PRU LIFE UK remains optimistic about its growth prospects this year despite high inflation and rising interest rates.

### **[Filinvest REIT primed for the 'Green Shift' in office leasing](#)**

Green strategies are seen to have a greater impact on real estate decisions of office occupiers, said property consultant Jones Lang LaSalle (JLL) Singapore in its recently released global study, Future of Work 2022. The study covering 13 key global markets, including global leaders USA, China, Japan, Middle East, UK, and Australia, cited that 56% of the commercial real estate occupiers surveyed are already paying or are willing to pay a premium to occupy space that has leading sustainability and green credentials.

## **CNN**

### **[China lost its Yangtze River dolphin. Climate change is coming for other species next](#)**

By Heather Chen

They called it the "Goddess of the Yangtze" — a creature so rare that it was believed to bring fortune and protection to local fishermen and all those lucky enough to spot it.

### **[What we know so far: Marcos' upcoming trip to US for UN General Assembly](#)**

By: Kristel Limpot

Metro Manila (CNN Philippines, September 15) — President Ferdinand “Bongbong” Marcos Jr. will leave for New York on Sunday, Sept. 18, for the 77th session of the United Nations General Assembly (UNGA), the first to be held completely in-person since the COVID-19 pandemic.

### **[Invest in agri research amid unstable global food supply, climate change — Bill Gates](#)**

Metro Manila (CNN Philippines, September 14) — Accelerating advances in agriculture production is a more efficient way to end world hunger than giving out food aid, Bill Gates argued in the 2022 Goalkeepers report.

### **[Charles will not cool on climate action, say friends](#)**

By Justin Rowlatt

Will King Charles III turn his back on a lifetime of environmental campaigning?

## **DOWN-TO-EARTH**

### **[Climate change will hit us hard: 7 in 10 people express fear in WEF survey](#)**

More than seven in 10 people expect climate change to have a severe effect in their regions over the next 10 years, according to a new survey conducted by the World Economic Forum (WEF) and market research firm Ipsos.

### **[Southeast Asians worried about food security, extreme weather events, shows climate survey](#)**

By: Susan Chacko

Citizens of southeast Asian countries are deeply worried about coal power plants, extreme weather events and climate impact on food security, according to a new survey.

## THE DAILY TRIBUNE

### [CHR welcomes increased budget for climate change](#)

By Cherk Balagtas

CHR welcomes the proposed increased budget allocation for climate change expenditures for FY 2023.

### [Egypt readies for climate confab](#)

The summit needs to demonstrate the damage caused by the climate crisis, particularly in developing countries.

## FOREIGN POLICY

### [Egypt to Host Big U.N. Climate Summit While Muzzling Environmental Activists](#)

By: Robble Gramer

In the run-up to hosting a major U.N. climate summit in November, Egypt has publicly touted its commitment to curb carbon emissions and framed itself as a leader in supporting the developing world's adaptation to new climate shocks. But behind the scenes, the Egyptian government has cracked down on environmental activists in the country through harassment, intimidation, and arrests, according to interviews with environmental experts and a new report from an international human rights watchdog.

## GMA NEWS

### [Marcos to speak about climate change, rule of law, food security at UN General Assembly](#)

By: Anna Felicia Bajo

President Ferdinand "Bongbong" Marcos Jr. is set to fly to the United States next week to participate in the 77th United Nations General Assembly (UNGA) and speak before an economic briefing.

### [Climate impacts heading to 'uncharted territories of destruction' —UN chief](#)

By: Gloria Dickie

London — The impacts of climate change are "heading into uncharted territories of destruction," UN secretary-general António Guterres warned on Tuesday on the release of a multi-agency scientific report reviewing the latest research on the subject.

### [What will King Charles's reign mean for climate action?](#)

By: Jack Graham

As Britain's King Charles III begins his reign after the death of his mother, Queen Elizabeth II, environmental campaigners will be watching closely to see if he continues to advocate for climate action and is able to help drive change as monarch.

## THE GOOD MEN PROJECT

## [Across the Globe, Those Harmed by Climate Change Are Turning To Courts](#)

By Doug Johnson

In the wake of Typhoon Haiyan, which devastated the Philippines in 2013, a group of organizations and individuals in the country and elsewhere petitioned the Commission on Human Rights of the Philippines to investigate whether fossil fuel companies violate or threaten to violate human rights by contributing to climate change. At least 6,300 people died in the storm, and 29,000 were injured.

### **THE GUAM DAILY POST**

## [Climate change in HK worsens housing struggle for city's poor](#)

By: Theodora Yu and Louise Delmotte

Hong Kong — Anyone who has experienced a Hong Kong summer has a story about the oppressive heat and humidity.

### **INSEAD KNOWLEDGE**

## [Countering Climate Change With “Greener” Economics](#)

By Robert U. Ayres

Truly understanding the fundamental role of energy in the economy is key to a more sustainable future.

### **MALAYA BUSINESS INSIGHT**

## [Filinvest REIT leads office sector’s green shift](#)

Green strategies are seen to have a greater impact on real estate decisions of office occupiers said property consultant Jones Lang LaSalle (JLL) Singapore in its recently released global study, Future of Work 2022.

## [Smart buildings becoming the norm](#)

Smarter and greener buildings are fast becoming the norm in the Philippines, with more and more property developers taking action to address climate change and to embrace the available advanced technologies.

## [Pakistan, PH wallow in the same boat](#)

The whole of Pakistan is wallowing in misery now as it buries 1,400 people who have died in flooding that was so massive it covered one-third of the country, ruining agricultural crops, leveling homes and shops, eroding and destroying roads and bridges.

## [Innovations for a Better Built Environment](#)

On the panel track Envisioning the Homes of the Future, thought leaders agreed that the home of the future is not necessarily tech-enabled, as the common belief goes. Rather, it's highly functional, accommodating the needs of residents.

### [Summer in September](#)

By: Jose Bayani Baylon

THAT'S how it felt like yesterday as I settled down in my BGC "pied-a-terre" in preparation for another week of work. (Actually, my place in BGC isn't an "occasional place to stay in," which is what that French term means; I just wanted to use it ha-ha).

## **MANILA BULLETIN**

### [DPWH expedites Manila Bay project to address NCR flooding](#)

By: Chito Chavez

The construction of Estero de Abad Drainage System/Outfall Extension at the Manila Bay is being rushed in a bid to help eliminate flooding in Metro Manila, Department of Public Works and Highways-National Capital Region (DPWH-NCR) Director Nomer Abel P. Canlas said on Sunday, Sept. 18.

### [Solar rooftop seen as solution to PH power crisis](#)

By: Myrna Velasco

The installation of solar rooftops on homes as well as businesses is seen as a key solution to the recurring power crisis that has been tormenting the country's power grids, according to the Philippine Solar and Storage Energy Alliance (PSSEA).

### [Diokno: Climate action needs sustainable finance](#)

By: Chino Leyco

The Department of Finance (DOF) has emphasized that sustainable finance plays a critical role in driving the country's shift to climate change adaptation and mitigation practices.

### [PH calls for 'bold' ASEAN vision](#)

by Joseph Pedrajas

The Philippines has called on its fellow Association of Southeast Asian Nations (ASEAN) to be "bold" in their vision for the region, particularly by considering the "cataclysmic" changes happening around.

### [Hope floats: Student creates a chair that transforms into an emergency life raft](#)

By: Jessica Pag-iwayan

Data have shown that annually, the Philippines has over 20 typhoons—five of which have the potential to be destructive. Flooding has become the most frequent and widespread natural disaster in many cities across the country and drowning accounts for 75 percent of deaths in flood disasters.

## **MANILA STANDARD**

### **[Pitmaster Foundation sponsors national climate change summit](#)**

Private charity organization Pitmaster Foundation is the top non-profit sponsor of the National Climate and Disaster Emergency Policy Forum taking place on September 22, 2022.

### **[DENR project Cold Chain Innovation Hub launched at TESDA in Taguig City](#)**

The Cold Chain Innovation Hub (CCIH), a one-stop shop for technology transfer, capacity building, research, and education, has been launched at the TESDA Complex in Taguig City, showcasing the best low-carbon technology and energy-efficient technologies.

### **[President marks birthday with tree planting](#)**

By: Vito Barcelo and Vince Lopez

President Ferdinand Marcos Jr. on Tuesday raised the need to protect the environment as a way to promote economic growth and stability, during a nationwide simultaneous tree planting activity on his 65th birthday.

## **THE MANILA TIMES**

### **[Climate change to cause more diseases – study](#)**

By Red Mendoza

CLIMATE change may trigger more ailments such as heat-related, vector-borne and infectious diseases with pandemic potential, a study commissioned by an insurance firm showed.

### **[\[Opinion\] No, we are not going to be able to save the planet](#)**

By: Ben Kritz

I think my empirically justified disgust with climate change denialism is fairly obvious at this point, but in one sense I understand the frustration of climate deniers with what they perceive as self-serving dogma: the constant mantra, "We must act to stop climate change before it's too late," annoys me to no end, just not for the same reasons.

### **['Private sector partner in economic recovery'](#)**

By: Eireene Jairee Gomez

Trade Secretary Alfredo Pascual on Thursday recognized the importance of working closely with the private sector in sustaining economic growth.

### **[PH lost \\$10B due to climate change – Diokno](#)**

By: Tiziana Celine Piatos

Finance Secretary Benjamin Diokno on Wednesday said the Philippines has incurred losses of \$10 billion over the past decade due to climate-related hazards.

### [Business planning key to survival - experts](#)

By: Ed Paolo Salting

Business planning and strategy are what companies need to survive amid the current global uncertainties and the shift to digitization.

### [ECCP, Nestlé upbeat on Mindanao RE](#)

By: Eireene Gomez

The European Chamber of Commerce of the Philippines (ECCP) and Nestlé Philippines are upbeat on the development of renewable energy (RE) and service delivery in Mindanao as they cited the need for continuous collaboration between government and industry in driving growth in the region's shift to alternative energy.

### [SM Prime, WWF partner for responsible reporting on climate change solutions](#)

SM Prime Holdings Inc., one of Southeast Asia's leading integrated property developers, and leading conservation organization World Wild Fund for Nature (WWF) Philippines have entered a collaboration in adopting a more robust reporting framework to address the climate crisis.

## **MIRAGE NEWS**

### [Biodiversity loss and climate change, two mutually reinforcing crises](#)

Changes in agriculture and our food system are crucial in combatting climate change and biodiversity loss. That is the topic of the third Mansholt lecture, to be delivered by Plant Ecology and Nature Conservation professor Liesje Mommer. Each year, Wageningen University & Research presents its views on European issues within the domain of food, agriculture and sustainability during the Mansholt lecture.

## **MONGABAY**

### [Even without human-driven deforestation, climate change threatens some forests](#)

By Ashoka Mukpo

When it comes to climate solutions, trees are in vogue right now. From the Trillion Tree Campaign to the stream of vigorous — if somewhat vague — promises made at last year's COP26 climate conference to halt global deforestation, harnessing the carbon-sequestering power of forests has become a goal of governments, cities, and policymakers across the world. Even oil companies are getting in on the action.

## **NBC NEWS**

### [Patagonia founder gives away company, ensuring profits go to fight climate change](#)

By: Evan Bush

The founder of the outdoor brand Patagonia has relinquished his ownership in the business and directed its profits to fight climate change.

## **NIKKEI ASIA**

### **[Pakistan floods drive calls for climate justice](#)**

By Adnan Aamir

ISLAMABAD -- After four days of torrential rain, residents of Rahimabad, a low-lying neighborhood on the banks of the Kabul River, received a WhatsApp message on August 26. The deputy commissioner of the Pakistani district of Nowshera regretted to inform them that floodwaters were rising rapidly and would submerge most of their homes in the next few hours. The message urged residents to evacuate.

## **PHILIPPINE DAILY INQUIRER**

### **[\[OPINION\] Inclusion of Taiwan for the global good](#)**

The 77th session of the United Nations General Assembly takes place from 13 to 27 September 2022 in New York City under the theme “A watershed moment: transformative solutions to interlocking challenges.” As the world’s most important forum of global cooperation began, the global community is confronting a number of unprecedented crises: from the ongoing COVID-19 variants and stalled efforts on climate change, to supply chain disruptions and China’s increasing rhetorical and military intimidation of Taiwan. At this juncture, it is worth reminding these leaders that all people – including the people of Taiwan – deserve to have their voices heard and efforts included for the global good.

### **[Climate tipping points threaten earth – study](#)**

By: Krixia Subingsubing

Manila, Philippines — The earth is at risk of triggering multiple climate tipping points if global temperatures continue to rise beyond 1.5 degrees Celsius above pre-industrial levels, according to a sobering new analysis that underscored the urgent need to decarbonize the planet to limit the risk of crossing dangerous levels.

### **[La Niña adds to inflation woes](#)**

By: Ronnel Domingo

A more-entrenched La Niña climate phenomenon that brings above-normal rainfall to the Philippines could increase the pressure on prices of basic commodities to rise further, especially if heavy rains destroy this year’s main crop of rice and other produce.

### **[Local solutions toward food security](#)**

By: Rudy Parel jr.

Two years ago, the COVID-19 pandemic came to the fore, drastically disrupting all sectors of Philippine society. But even before the pandemic, the country has already been experiencing two ongoing crises: hunger and malnutrition.

## **PHILIPPINE NEWS AGENCY**

### **[New app to boost LGUs' disaster rehab, recovery efforts](#)**

By: Priam Nepomuceno

Manila – The newly launched PlanSmart Ready to Rebuild web application of the Office of Civil Defense (OCD) will allow local government units (LGUs) hit by calamities to immediately generate rehabilitation and recovery plans (RRPs).

### [OCD, DOST, World Bank to launch disaster rebuilding app Sept. 14](#)

Manila – The government's science and disaster response agencies together with the World Bank (WB) will launch the "PlanSmart Ready to Ready Rebuild" web application on Sept. 14.

## **THE PHILIPPINE STAR**

### [Philippines prodded on net zero commitment](#)

By: Richmon Mercurio

The Philippines is urged to establish its net zero goal soon to attract more investments to support the country's shift to renewable energy.

### [Marcos marks 65th birthday with tree-planting, gift-giving](#)

By: Helen Flores

President Marcos marked his 65th birthday yesterday with a tree-planting activity at an old sanitary landfill in Rizal and a gift-giving event at an orphanage in San Juan City.

### [Inflation and food shortage](#)

By: Tony Katigbak

One of the main issues we have been facing alongside navigating life with COVID-19 in this new normal is the continued issue of inflation. As the cost of everything continues to go up and up, many Filipinos are struggling to make ends meet. Life is already highly unpredictable post-pandemic, and salaries have remained the same if not lower. There are so many who lost work, and adding higher prices exacerbates an already difficult situation.

## **RAPPLER**

### [\[Opinion\] Global warming, climate change, and implications for the Philippines](#)

By: Kelvin Rodolfo

The fossil fuel industry, more than a century and a half older than the nuclear industry and its self-serving propaganda, has had much more time to praise itself and defend its terrible environmental record. No other group has done more to spread confusion about CO2-induced global warming.

## **REUTERS**

### [Hard-hit by climate change, winemakers turn to sustainability to ride the storms](#)

By: Mike Scott

September 14 - Winemaking has always been affected by the weather and climate – it's inherent in the phrase "a good vintage". The quality of the wine can be affected by too much rain or not enough, temperatures that are too high or too low.

### [The U.S. oil executive making a big bet on combating climate change](#)

By: Liz Hampton

Sept 14 (Reuters) - The chief executive of a small U.S. oil company has jumped to the forefront of the energy industry's greenhouse gas reduction efforts, recruiting high-profile firms to his vision of striking it big by selling access to carbon storage developments.

## **STAR ADVERTISER**

### ['Clairvoyant' 2012 climate report warned of extreme weather](#)

By: Seth Borenstein

Record high temperatures in urban Europe as heat waves bake the planet more often. Devastating floods, some in poorer unprepared areas. Increasing destruction from hurricanes. Drought and famine in poorer parts of Africa as dry spells worsen across the globe. Wild weather worldwide getting stronger and more frequent, resulting "in unprecedented extremes."

## **SUNSTAR**

### [Negros Occidental inks MOA with environment, green tech scholars](#)

Negros Occidental Governor Eugenio Jose Lacson has signed a Memorandum of Agreement (MOA) with 25 grantees of Diploma in Environment and Green Technology Education (Degte) Scholarship Program.

### [NGAs, LGUs plant trees to combat climate change](#)

National government agencies, local government units and stakeholders have joined forces to help mitigate the impact of climate change by planting 1,600 native tree seedlings in the mountain barangay of Carcar City in southern Cebu.

### [Finance chief urges franchisers to digitalize, climate-proof ops](#)

By: Carlo Lorenciana

Franchisers are urged to lead the charge in greening and transforming the country's business sector by mainstreaming digitalization in their operations and embracing sustainable business practices.

## **UNITED NATIONS NEWS**

### [UN expert calls for international fund to help recovery of climate change-affected States](#)

Dhaka/Geneva (15 September 2022) – Bangladesh should not have to carry the burden of climate change alone, a UN expert said today, calling for an international fund to help the South Asian country to recover from the impacts of extreme weather events.

### [Climate change impacts 'heading into uncharted territory', warns UN chief](#)

The researchers behind “Uniting in Science”, coordinated by the World Meteorological Organization (WMO), studied several factors related to the climate crisis - from CO2 emissions, global temperature rises, and climate predictions; to “tipping points”, urban climate change, extreme weather impacts, and early warning systems.

## **THE VISAYAN DAILY STAR**

### [\[Opinion\] Tipping points](#)

Planet Earth is at risk of triggering multiple climate tipping points if global temperatures continue to rise beyond 1.5 degrees Celsius above pre-industrial levels, researchers from the University of Exeter, Stockholm Resilience Center, Future Earth and Potsdam Institute for Climate Impact Research say, underscoring the need to decarbonize the planet to limit the risk of crossing dangerous levels.
