

Budgetary Thrusts, Priorities and Strategies for FY 2019

Consistent with the Administration's Development Agenda, the National Framework Strategy for Climate Change (NFSCC), the National Climate Change Action Plan (NCCAP), and with the three Post-2015 International Frameworks including the *Sendai Framework for Disaster Risk Reduction (2015-2030)*, the *Sustainable Development Goals (2015-2030)* and the *Paris Climate Change Agreement*, the Climate Change Commission is driven by the following thrusts, priorities and strategies:

- a. Recommend legislation, policies, strategies and programs on the appropriations for climate change adaptation and mitigation and other related activities.
- b. Mainstream CCA/DRR in local development and action plans, and policy recommendations ensuing the process of a science-based climate and disaster risk vulnerability assessments necessary in local planning. LGUs will be continuously capacitated in mainstreaming CCA/DRR into their local development and action plans as well as the formulation of proposal for the identified adaptation measures as part of implementing the PSF as well as access to other climate financial mechanisms.
- c. Undertake study and engage the National Panel of Technical Experts to provide findings on the impacts of climate change as firm basis for policy recommendations.
- d. Science-based approach, through the development of tools and guidelines, will be enhanced and strengthened in order for LGUs to develop risk-based local development plans.
- e. Exercise its mandate to coordinate and enhance synergy among government agencies and offices in mainstreaming climate change adaptation/disaster risk reduction and mitigation in plans and programs through the Results-Based Monitoring and Evaluation System (RBMES framework) that shall be institutionalized and implemented to measure the efficiency and effectiveness of climate change adaptation and mitigation plans and programs and through the institutionalized of Climate Change Expenditure Tagging (CCET) in the planning and budget process, in coordination with DBM and DILG.

- f. Continue to capacitate the national agencies serving as lead agencies on the tools and the actual conduct of the Greenhouse Gas Inventory. By means of Executive Order No. 174 on Institutionalizing the Philippine Greenhouse Gas Inventory Management and Reporting System (PGHGIMRS), the CCC as the overall lead agency and the identified sectoral lead agencies will start the conduct of the national greenhouse gas inventory.

These major thrusts shall contribute towards creating a strong and climate change-responsive macroeconomic policies for pro-poor growth and keeping sustainable ecosystems resilient to climate change effects, as outlined in the Administration's agenda.
